We've scoured the catwalks to bring you all the greatest looks – and we'd like to

think we've done them well and added our own twist. There's a shape and a shade to suit everyone – whichever way you wear it.

Denim – the boot cut is the shape to be wearing we've got this covered by premium denim labels Citizens of Humanity and Paige.

Soft Goth – black is back! celebrate a new age of innocence with layers of opulent black in all fabrications. Lace is having a major revival as is soft leather, this leather dress coat from Supertrash is selling out fast! You'd better be quick.

Take your pick from our various hues of purple stunning satin shift dresses, silk shirts or chunky knits, the long line cardigan is a major autumn buy. Wear as a mini dress, or as an on-trend alternative to the coat, make room for grandpa's favourite the knitted waistcoat. Supertrash and Velvet have this all sewn up.

The 70's vibe continues with folklore dominating, paisley is a key print with autumnal colours leading the trend. Try this Alannah hill dress layered over a polo for an instant update.
